WORK EXPERIENCE

Product Designer

Wappgo IT Services (09/2019 - 03/2020) 6 Months

- Re-designed the entire Legal251 product, which includes a website & three backend control panels that allow users to take online services related to legal matters & personal & business finance. Prototyped high fidelity UI, advanced system design & conducted user research, surveys & interviews to keep the end-user front and center throughout the design process.
- Helped & guided the team in creating graphics and logos to build the brand's social media presence, which significantly increased sales.

Design Lead

Wappgo IT Services (03/2020 - 03/2021) 1 Year

- I designed a Social Media app (Today's Bharat) that allows users to snap & share videos & photos with their friends & followers & get the latest news about India & the World in real-time. Prototyped wireframes & high-fidelity interfaces & worked closely with Developers to guide them through the design.
- I Designed a Website, an Android app & 3 control panels for a product that allows users to take online services related to legal matters & personal & business finance.
- I presented design solutions for various products to the stakeholders & management committee. Conducted design sprints to focus on one design problem & develop & design an optimal solution with a fantastic team.

DESIGN PROJECTS

Legal251

10/2019 - 03/2021

- Legal251 is a large-scale project that offers online services related to finance and legal matters with cross-platform support, including a web app, an android app, & 4 control panels to manage their services & documents with seamless interaction with the service team at Legal251.
- The team of Legal251 can see & manage the uploaded documents further to assist users with their services and legal proceedings. Admins of the team can control & monitor all the activity that their executive team has done.

Today's Bharat

08/2020 - 11/2020

- Today's Bharat is a Social Media platform where users can connect with other people & can share photos, videos & short video clips. They can follow, chat, post, comment, like, report, record, duet, add music, explore, search, read news & much more on this platform.
